**Skylar Soehl** is a creative developer  
and visual designer based in Boston.

## Experience

**Software Engineer Co-op**, True Fit  
Boston, MA ■ July 2019 – Present

- Joined the Engine (backend) team — working on testing and modernizing an internally used web application that supports the various teams in debugging their machine learning engines.
- Took responsibility for the functional + UI/UX design and implementation of a brand-new internal web app that will be used by QA engineers to analyze fit reports.

**Design Chair**, Northeastern Women in Tech  
Boston, MA ■ April 2019 – Present

- Promotes weekly social events, tech talks, and speaker series through digital collateral for our various social media platforms.
- Developing NUWIT's brand identity through internal design exercises, redesigning our logo, and creating a brand book for future design and web chairs.
- Led a workshop for members on how to use REST APIs.

**Studio Developer**, Scout Studio  
Boston, MA ■ January 2019 – April 2019

- Collaborated with a team of designers and developers in an agile environment to build the UI and UX of a responsive marketing site for a venture.
- Created brand and identity by facilitating brand exercises for type, color, and logo explorations with the client.

## Education
